

VUNDER TECH INCREASES
THE VALUE OF YOUR IDEAS
BY REDUCING THE WEIGHT
OF YOUR PRODUCT

IT HAS NEVER BEEN SO EASY AND FLEXIBLE TO IMPLEMENT YOUR IDEAS

FIND OUT ABOUT
THE LIGHTWEIGHT
CONSTRUCTION
REVOLUTION FOR
SHOP AND INTERIOR
FITTING AND
THE FURNITURE
INDUSTRY.

We are the leading international premium system supplier and innovative pioneer for lightweight components in caravan and motorhome industry. From now the industries of furniture, craftsmanship, shop fitting and interior design can profit from the innovative power of the market leader.

By using our unique lightweight construction technology VUNDER TECH you reduce the weight of your products. Simultaneously it fulfills following demands: esthetics, functionality and material consumption.

VUNDER TECH received the INTERZUM AWARD 2017 - the coveted "Best of the Best" award in the category "Intelligent Material & Design".

VUNDER TECH

**MULTIFUNCTIONAL,
WATER RESISTANT,
VARIED SHAPEABILITY**

Discover the advantage of VUNDER TECH materials. We implement your ideas with VUNDER TECH multifunctional and with a varied shapeability. Challenge us!

By using the VUNDER TECH technology, up to two thirds of the weight can be saved compared to conventional wood-based materials. The difference is revolutionary.

// Thickness:
From 5 mm

// Maximum size:
2.100 x 1.300 mm

// Core material: Various
useable materials

// Surface material:
Decors from 0.4 mm

// Edge colour:
Black and grey

// Screw pull-out value:
820N out of casted
material

// Batch size: Also small
quantities feasible

// Tooling costs:
None, exception:
curved parts

WHY VUNDER TECH

A „LIGHT“
DECISION

- // CO₂ reduction through weight reduction
- // Robust and water resistant
- // Multifunctional applicable
- // Varied shapeability
- // Aesthetic and functional materials
- // Lightweight technology of the future
